MUZAMMIL SHAIK

WEB DEVELOPER

PROFILE

I am an aspiring software engineer with a solid background in coding and a drive to develop original ideas. Over the course of my study at GITAM University, I have developed my skills in specific programming languages such as Java, and C. Recently, I have been taking this SQL and Javascript course to enhance my knowledge of the IT sector. I am committed to ongoing learning and developing my skills in the future. I'm motivated to put my skills to help the company reach its heights and fulfill its objectives. I want to join a vibrant software development team as a significant asset.

CAREER OBJECTIVE

To pursue a career in a company that offers abundant prospects for the augmentation of my expertise and understanding, while simultaneously making meaningful contributions to the expansion of the organization.
